

\$30,000 PAID FOR HOUSTON FARM

CALHOUN PLACE SOLD BY DOWLING AND SON TO NEW YORKER.

N. B. Dowling and son, Hart Dowling, Saturday made the deeds to the Calhoun place three miles west of town, which they had owned but a little over a year. The farm contained 200 acres and sold for \$10,000.

When the Dowlings bought it last year, they paid \$8,000 for it, and this is considered a good profit, although it is one of the prettiest farms in Houston county, and will likely continue to rise in value, as it has in the past.

The sale was made to Messrs. Chas. A. and Amos E. Hall, of New York.

These gentlemen had been in correspondence with the Commercial Club Secretary here for some time, and came down last week to look over the situation in Dothan. They are engaged in the manufacture of veneered goods, such as fruit baskets and crates, and realized that they would like to locate a factory nearer the raw material. It was while looking out this location that they saw this farm and bought it. It didn't take but a few minutes for the trade to be made when the place was looked over, and the money was paid and the deeds drawn.

This might be considered one of the best trades that the commercial club has brought about, for no doubt these men have friends who would be interested in coming to such a town as Dothan if they knew about it, and such a deal as this will help them to find out.

These people, if they secure a proper location for their factory, would have a weekly payroll of about \$600, bringing skilled workmen to the city. It will be a permanent industry, and every effort should be made to get them a suitable location at a reasonable price.

The gentlemen were well pleased with this town, and with the surrounding country, as they rode around here for several days and looked over the territory.

In buying this farm, the buyers didn't take into count the timber on the place, but said that they wanted a good farm near town, as they owned one back in New York state, stocked with some fine cattle. They knew what they wanted, and had the money to pay for it.

OFFICER HURT WHILE ATTEMPTING ARREST.

Officer Charles Pittman was painfully hurt last night while attempting to arrest a rowdy white man in the Southern part of the city.

The man, whose name is withheld or the present was in a drunken condition and had been creating a lot of excitement about town. Officers Pittman and Rollins went after him and found him in his buggy, at the corner of Washington and Alice streets. The officers jumped from their buggy and as Mr. Pittman grabbed him from behind, he began to run his mule thus dragging the officer with him. As his shirt tore apart Mr. Pittman was thrown to the ground and badly bruised about the head. He was skinned up considerably and a large gash was cut over his right eye. The man escaped.

W. H. Grant left this morning for Headland, where he will spend this week in interest of the Grant Clothing Company. He has just returned from Abbeville, where he spent last week and reports a good business for his company, who are now supplying a majority of the clothing wants in the surrounding little towns.

A. J. Farmer returned to the city this morning from Atlanta where he has been in the interest of the Farmer-Whitely Dry Goods Co.

A FIERCE BATTLE ON THE BORDER

AFRICAN REBELS ATTACK THE FEDERALS AND ELEVEN ARE KILLED

Douglas, Ariz., March 12.—Late tonight Captain Johnstone received a telephone message from Comisario Vasquez, stating that Blanco's men were again advancing on Agua Prieta. The United States cavalry was ordered out and will take up its position on the border.

Douglas, Ariz., March 12.—Eleven federal soldiers dead and eleven wounded, with the loss to the rebels of 100 men, is the result of a battle fought at Agua Prieta today.

It was reported that 300 men in federal uniform were sent to Agua Prieta and that the rebels were defeated by a small force.

The battle was reported to have been witnessed by several thousand Americans many of whom rushed to the battlefield while the fighting was in its height. After the smoke had cleared away, it was estimated that the rebels had killed 11 federal soldiers and wounded 11. The rebels were in readiness to assist the Mexican army surgeons.

Except for a few prisoners taken by the federalists, the rebels retreated in good order. It is understood that Blanco's entire force did not participate in the engagement.

B. G. Farmer made a business trip to Abbeville today.

HOUSTON FARMER IS SHOT TO DEATH

TWO OTHERS ARE INJURED IN SHOOTING AFFRAY AT GORDON

The first thrill of excitement since his accession to shroval majesty, was felt by Sheriff Hay on Monday morning when the announcement came from Gordon that Bill Bevil, who lived about two miles from there was murdered and his son, a youth of 20 years of age, was shot through the arm.

The news was brought to the city by a Mr. Burkett, who stated that Charlie Thompson came to Paucsey Sunday night and had a load of bird shot picked out of him, telling the civilian that young Bevil had shot him. He claimed to the doctor that he had shot in self defense.

The details as nearly as could be learned by the Eagle are that Thompson went to the home of the Bevils looking for trouble. It is alleged that he shot the older Bevil through the heart and the younger Bevil, seeking to avenge the death of his father, opened up on Thompson with a shotgun. In making his escape, Thompson shot the younger Bevil through the arm with a gun. Young Bevil is not seriously injured.

Deputy McIntyre was instantly dispatched to run the alleged murderer down but up until 3 o'clock Monday afternoon, nothing had been heard from him. Information from Sheriff Hay, however, tends to show that he anticipates the arrest of Thompson before forty-eight hours.

In case of his arrest, Sheriff Hay anticipates no trouble on the part of the citizens of that community.

SMALL FIRE SATURDAY NIGHT.

A small but threatening fire occurred Saturday night in the roof of the Dothan Oil Mill plant. The blaze was extinguished in a few minutes after it was discovered, and the damage was practically nothing.

W. L. Cowdery, of Columbus, is the guest of his sister, Mrs. B. G. Farmer.

CRITERION BEING REMODELED.

Carpenters began this morning on the remodeling of the Criterion the popular moving picture show on Foster street.

The front was taken out and the interior will be arranged as is customary with all up-to-date picture show buildings, with two doors between which will be located the ticket window. This has been moved farther, toward the front and is almost even with the sidewalk. There will be more seats added, and they will be in two sections. The work will last only a few days and the shows will not be stopped, but pictures will be shown at the usual hours.

HALSTEAD-BEGARS

A marriage license was issued today from the probate court for Mr. J. D. Halstead and Mrs. Rachel Begars, both of Cottonwood.

Mr. and Mrs. Fred R. Ball are preparing to leave in a few days for Albany, where they will reside in the future. Mr. Ball will still be with the Central and will have a run from Albany to Columbus.

Messrs. Harvey Bell, Brantley, Folmar, Bruce Dickerson, C. J. Faulk, Harold Saxon, Julian Mayes and Dug Baker went to Columbia yesterday afternoon.

Mrs. Mary E. Jones, an experienced and up-to-date milliner of Wheeling, W. Va., has arrived to take charge of the Farmer-Whitely Dry Goods Company's millinery department.

J. S. Mays left this morning for a business trip of a week to Abbeville and Opp.

W. J. Darden left this morning to attend the state meeting of the W. O. W., which is in session at Mobile.

Editor Jernigan, of the Headland Standard, was in Dothan today on business.

A lone bandit is usually described as a small man, probably because his victim compares him with the apparent size of the gun he flourishes.

SEES CHILD KILLED; MOTHER IS INSANE

RUNS TO HOSPITAL WITH FLAMES AND BONES IN HAND—MOM ATTACKS AUTOISTS

Cincinnati, Ohio, March 12.—After seeing her 5-year-old daughter, Esther, crushed to a pulp by being hit by an automobile, picking up the mass of mangled flesh and bones and running four squares to the city hospital, went violently insane today when informed by the officials of the institution that the child was dead.

She was placed in a strong ward and in a precarious condition tonight. A riot was narrowly averted by the timely arrival of the police directly following the incident. The little Koffman girl was playing on Central avenue when the machine owned by Mrs. W. A. Leach, of Norwood, ran her down.

RACE RIOT BREAKS OUT IN GALVESTON

Galveston, Texas, March 12.—A race riot was precipitated early today by the stabbing of Winfield Joel, a soldier from the camp at Fort Crockett, by an unknown negro in the "red light" district of Galveston.

One Mexican and four negroes were severely beaten and the house in front of which the stabbing occurred was set on fire and burned to the ground. The entire police force of the city was called out to quell the disturbance.

Joel, who is a member of the 14th Company, Coast Artillery, stationed at Fort Moultrie, Charleston, S. C., lies in Seely hospital seriously wounded with a deep knife wound in the chest just above the heart. He probably will recover. A policeman was stabbed in the back, but is not seriously wounded.

Genous Aman, of Headland, was here today.

J. D. Prevatt, of Bainbridge, was a well known visitor to Dothan Sunday.

DOTHAN'S DEADLIEST ENEMY

- The common house fly takes more meat, fouls more food, spreads more filth and scatters more germs of disease than any other single factor in our civilization
- Screen Your House and Store

Diaz has been holding things down for a long time, but this may be the beginning of his end

It has been suggested that it is a good time for Texas to enforce the liquor laws while the regular army is over there

Old Charlie Greer says that Brooklyn Lawrence is making Marion his temporary home just now, and he don't want anything said about it

The Bullock County Breaze man and Senator Frazier had a fight the other day but it seems to have left no sign. Both of them are just a little ashamed of it

The army boys ought to be able to recognize Texas streets when they taste it, after today have spent three or four months down there where they used to grow

From the display of fishing tackle in some of the show windows, we ought to be able to hand out some interesting news items about big fishing trips. Fishing trips, we said

When a town in Oklahoma makes up a purse and sends it to a Birmingham paper to advertise real estate in Oklahoma, it looks like accepting money that should be given to charity

Pensacola's slogan is the Deep Water City, but when the Alabama legislature gets through with the whiskey question, they will have to take more water in Pensacola than common, for the freely stuff will flow in other sections

Just at this time it looks that some of our Chollie Boys are overlooking things. For instance, we haven't seen one of them wearing a this year's straw hat. An oversight, clearly

Hon. Laura Jean Libby says something about a man who put "his shoulder to the plow and started it to do its duty." She is able to write school girl thrillers, but her ideas about starting the plows is at variance with the practices and customs in vogue in Alabama

If the Tri-Cities Daily would try a printing press instead of a guano distributor, and some ink instead of lamp black, we believe it could get out a paper the people could read and enjoy without soap and a sponge. We believe the editors mean well but are not printers, hence, they are imposed upon. They don't know where to start to make improvements in the typographical appearance of the sheet

The Saturday and Sunday papers from Tuscaloosa are overdoing things somewhat. The Times-Gazette, and the News, both got out papers about five times bigger than usual, using up so much paper and advertising space at one time. It looks like they would conserve this business, and let it spread out over all the issues of the week instead of printing it all at one time. Two mighty clean sheet, for an ancient town like Tuscaloosa

FIGURING INCREASE

In 1880 we had about 320 people, and a business lot then sold for \$50 to \$100, depending somewhat upon location, but not so much, for, they were not particular then. They thought it was all located poorly enough. Then in 1900, when we jumped to 3,200 people, those lots had houses on them, and of course they sold for \$1,000 to \$1,500, according to location, for location was cutting some figure by that time.

At this time, when we have about 8,000 people (7,100 a year ago) the business houses had doubled up another time or two, to where \$5,000 may buy some according to location, and \$10,000 may buy others, and we have some that \$40,000 doesn't touch

BILL NYE ON ALABAMA

The first newspaper that was issued in Dothan was one called the Dothan Light. There hangs a copy of it in the Eagle office. It bears the date of March 2, 1889, twenty-two years ago. There is in it an article reading like this:

In a letter written from Montgomery Bill Nye has the following to say in regard to the farmers of Alabama: "Most all cotton planters in Alabama are engaged in raising a crop to pay for their grub and clothes of the past. They do not appear to enjoy it but they have formed the habit and they cannot overcome it now. It is one of the drawbacks of cotton planting that the planter gets his goods on a credit at enormous prices, and then gives the crop to the merchant at the end of the season. In this way he is really only a kind of a hired man for the one who furnishes him with the supplies. He is wearing out the soil and barely keeping soul and body inside the same suit of clothes. This is the reason that his gate hangs by one hinge, and the wind sighs through the vertebra of his horse and carriage. That is the reason that you do not smell new paint around his premises, and the carpets on his floor are never hued out on the line to be chastised."

That was twenty-two years ago, and Bill Nye's story of the Alabama farmer wasn't overdrawn then. It wouldn't fit the situation now. The gates have two hinges, where the old wooden hinge held things together then, with the neck piece made of dogwood because it was tough.

The farmer no longer hangs around town early in the spring, looking for a merchant to "run him." He lets the merchant look him up for his credit is good and he has money in the bank. Nobody is his boss.

The smell of new paint, is common too. Twenty years have meant some things in this section besides coup-

ling time together. Every one of those twenty years have been improvements upon the previous one. (All the fact is, we have things going here in Alabama, is the farming line

AN IRISH ENTERTAINMENT.

IT'S BETTER TO BUY FROM ONE'S OWN COMPANY

When a man is a member of a mercantile company, he usually buys what he needs from his own company. The same is true of all other kinds of companies.

There are men, however, when they buy life insurance, pay no attention to this feature. Instead of buying in a company of which they become a member when they receive a policy and therefore share in the profits of the business, they buy in a company owned by people whom they know nothing about, and of course pay dividends to those people.

It has been proven beyond question that a life insurance company does not need capital stock; that the premiums paid by the policy holders will provide a guarantee fund to pay all claims, that capital stock dividends are nothing more than a contribution by the policy holders for which they receive nothing in return. If there was no capital stock, the dividend would go to the policy holders where they should go.

The National Life of Vermont has no stockholders. Every cent of the profits on the business for the past fifty years has gone back to the policy holders of the company. This method has given insurance, at the lowest possible cost. This company is represented here by L. G. Biggers, Phone 428.

M. CHERRY

FINANCING A POPULAR PASTOR.

The main question at issue between the pastor and trustees of the Fifth Avenue Baptist Church, as defined by a prominent deacon, is as between a church of moderate size with a minister of old-fashioned methods and "a great church with a pulpit orator—a huge auditorium filled with rambling religious rub- boriecks." "What good does it do,"

asks this objector, "to draw their girls to hear a popular preacher one Sunday and to a moving-picture show the next?" Dr. Asked has said that he "did not come from England to be the minister of a small community of Baptist," and that the first step in the "vast enterprise" he has at heart is to "erect a great church building worthy of our name and our min- istry." An edifice of the kind con-

templated would cost \$2,000,000, and a trustee, speaking on behalf of the "competent business men on the board," says that the pastor's health and other considerations do not justify the risk. "Two million dollars is a large sum to invest in a man when you don't know how long he is going to stay with you." That risk might be neutralized through the established Wall Street method of underwriting it. But

as respects the other objections, the question of increasing the capacity of the plant and modernizing it or continuing the conservative policy of the past is one on which opinions may differ. Overcapitalization in- volves dangers to which a small con- cern with the stock closely held is not exposed. For churches, as for railroad systems, there exist the con- trasting extremes of the Lockwood plan for favorite poet.

and the Missouri Pacific. In the case of the Fifth Baptist Church, it has the be- lieved of one of the most potent business men in the and its decision will no do taken with a due regard to conditions.—New York Wor-
